Dear Walt:

This is my congratulatory note to the "Pals" Club:

Representing the City of Xenia, it is a pleasure to congratulate the "Pals" Club on its 50th Anniversary of continuous service. Your service to your community, in areas of art, literature and science, cannot be measured in dollars and cents, but rather in helping mankind to make this a better place in which to live.

When you add up all the voluntary services rendered by such organizations, as yours, the results are fantastic.

It is my hope that the training received for service by your members will continue throughout your entire lives.

Let this be a stepping stone for the next fifty years for those following in your footsteps.

Dear Mr. Sellers:

I would like to take this opportunity to express my good wishes to you on the occasion of the fiftieth anniversary of the founding of the Patrons of Art, Literature and Science (PALS). As you well know, Greene County is justly proud of its long established position as a leader in the field of higher education. We possess perhaps the most varied mixture of institutions of higher learning in the State of Ohio. The varieties of private and public schools as well as different and unique philosophies and missions that they represent is something that no other member of the Ohio House of Representatives can equal in any district.

But however many institutions we may have, and however good they may be, it is to individuals working together in voluntary association who deserve the highest praise. PALS has been able to marshall those individual energies for half a century and like the spreading ripples of a stone dropped in a pond, it continues to move towards the future. My sincerest congratulations for your first half century of service to all.

Sincerely,

THE PALS CLUB — A BRIEF HISTORY

The Pals Club (Promoters of Art - Literature - Science) was organized in the month of September, 1928. The idea of such an organization had its inception in the minds of Dr. William Madison, Allen Borden, Robert Hardeon, Lester Lane and Dr. H.R. Hawkins. Several preliminary meetings were held in the homes of Allen Borden and Lester Lane and in the office of Dr. Hawkins, and it was determined that this organization would bring professional men of Xenia and Wilberforce together in fellowship and civic endeavor. The name "Pals" was chosen and the connotation of Promoters of Art - Literature - Science was suggested by Robert Hardeon and was readily accepted by the others in the meeting of organization.

The membership was to consist of 25 men, and the first roster of 18 Charter Members was as follows: Allen Borden, R.A. Braxton, Clarence A. Caliman, Lloyd Clark, Wesley Curtis, William Hargraves, Dr. H.R. Hawkins, Robert Hardeon, Bruce Green, Dr. J. Aubrey Lane, Lester Lane, Dr. J.A. Love, Dr. William Madison, Col. James A. Nichols, William Rickman, Everett Roberts, William S. Rodgers and George H. Valentine.

The usual activities of meetings, following regular business, was a discussion of some timely topic with a leader who was appointed at the previous meeting. There followed a session of whist and then "quarter limit" poker. In the beginning the menus were quite unpretentious. Usually potato chips, pop corn and soda pop were served and occasionally, sardines and some type of lunch meat. When sardines were on the menu, the Secretary had to attest to any suspicious Pal-ettes that they were served!

One of the first enterprises was the sponsoring of the Junior-Senior Prom for the local high school. In prior years, the students were forbidden to dance and could only have a banquet with no other type of entertainment. School authorities and parents agreed for the Pals to sponsor the prom at which dancing was allowed. This was done under proper supervision in May, 1929, and thereafter this became an annual attraction for the young people of the community.

The Pals promoted their own first formal dance in the spring of 1930 at the Classic Ball Room in Dayton. The service consisted of cookies and ten gallons of punch highly "spiked" with the best corn liquor available at the time. From then on, the annual dance of the Pals was an outstanding social event in the Xenia area eagerly looked forward to by local socialites.

Because of the repressive laws and common practices and the resultant underprivileged status of Negroes in the early years when the Pals Club was organized, the professional achievements of the Charter Members were considered to be most noteworthy. For example, the accomplishments of Borden, the master plumber; Hardeon, the inventive and innovative chemist; Caliman, the self-made engineer; Braxton, the crusading school principal; Rodgers, the "lawyer" without portfolio; Nichols, the army career-man; Hargraves, the first Negro to graduate from Miami University; Valentine, the university fiscal officer who made bricks without straw; and Drs. Hawkins, Love and Madison, the early medical practitioners, were then most significant but would be considered commonplace today.

These early Pals, and also Pals of succeeding generations have always assumed leading roles in helping to improve conditions for Negroes generally in Xenia and its environs; and the fact that there is now practically community-wide integration is due in no small part to the efforts of Pals individually and as a group.

Down through the years, the Pals Club has grown and endured because of the high calibre of men comprising its membership. Despite differing and, often, diverse views and philosophies, Pals have always worked closely together and promoted the purposes and ideals of the founders. In addition to the highest degree of good fellowship and camaraderie, the organization has consistently involved itself in worthwhile civic, educational and social activities, and the community at large has grown to expect a high degree of leadership from the Pals Club and from its members individually.

Continuing assistance has been accorded to such groups and organizations as the American Red Cross, the American Cancer Society, the Heart Fund, the Greene County YMCA, the Lung Association, The Xenia Fire Department, the NAACP, the Greene County Memorial Hospital, Wilberforce University, Central State University, Xenia High School, the Boy Scouts of America, the Links, Inc., Little League Baseball, and many other worthwhile enterprises.

The men of the Pals Club, as stated above, have always been and continue to be leaders, and it would not be possible to list all of them and to cite their many worthwhile accomplishments.

The record of this organization has been an illustrious one and can but continue so in the years to come under inspiring leadership and the cooperative endeavors of its members.

PALS TRIBUTE

TO OUR LOVING AND UNDERSTANDING WIVES

I love you not only for what you are, but for what I am when I am with you.

I love you not only for what you have made of yourself, but for what you are making of me. I love you for the part of me that you bring out.

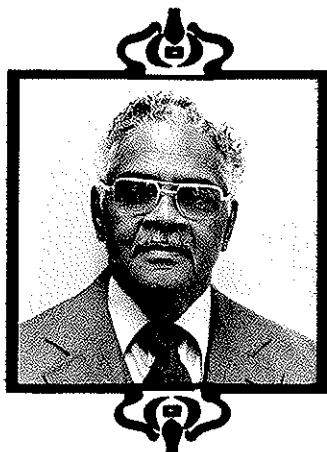

I love you for putting your hand into my heaped-up heart, and passing over all the foolish and frivolous and weak things which you cannot help dimly seeing there, and for drawing out into the light all the beautiful, radiant belongings, that no one else had looked quite far enough to find.

I love you for ignoring the possibilities of the fool and weakling in me, and for laying firm hold on the possibilities of good in me.

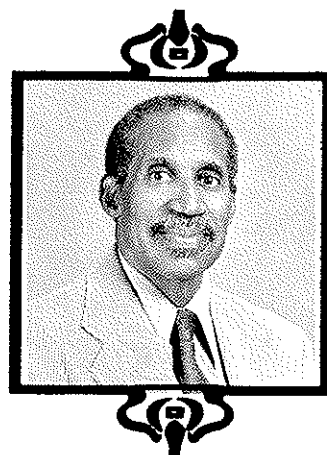

I love you for closing your eyes to the discords in me, and for adding to the music in me by worshipful listening.

I love you because you are helping me to make of the lumber of my life not a tavern but a temple, and of the words of my every day not a reproach but a song. I love you because you have done more than any creed could have done to make me good, and more than any fate could have done to make me happy. You have done it just by being yourself.
